## SERVICE DETAILS

We provide various services in the recruitment process. Below is the examples of services in each process.

## CHALLENGES AND SOLUTIONS

- “We want to reduce recruitment costs.”

**We propose tailored recruitment methods for each job opening, achieving overall cost optimization.**

PERSOL CAREER offers a wide range of recruitment services, including the job transition platform “doda”, job advertisements, new graduate recruitment support, and specialized services for freelancers, executives, and various specialists. Taking into consideration factors such as budget constraints and urgency, our approach involved suggesting recruitment strategies suitable for each job category, resulting in a successful and cost-effective hiring process.
- “We want to ease recruitment requirements set by the overseas headquarters.”

**We use data to enhance understanding of Japanese job market, supporting the rationalization of recruitment requirements.**

Japan’s unique job market, including the scarcity of bilingual candidates and employers’ attention to job transition frequency, often leads to a mismatch with global recruitment criteria. Leveraging the accumulated recruitment knowledge within the PERSOL Group, BRS provides data-driven insights into the number of potential candidates for specific requirements. This facilitates a better understanding of the Japanese market for the overseas headquarters, resulting in more aligned and effective recruitment process.
